## **Effective Consumable Solutions puts Misterton on the Map**

**The Award winning company from Misterton - Effective Consumable Solutions, have added to their list of International awards at the most recent Paperworld RemanExpo Exhibition in Germany.**

The company operate one of the few remaining toner cartridge remanufacturing plants in the UK, dedicated to remanufacturing high quality, high performance and reliable toner cartridges which are sold and used around the world. This is all done without compromising on their green credentials, which helped see them voted as Best UK Cartridge Recycling Specialist in 2018.

Most recently, the company exhibited their remanufactured products at the Paperworld event in Frankfurt, Germany. Director Chris Fink said “The exhibition is a fantastic networking opportunity for meeting new and existing clients. As a market leader it’s important that we put ourselves at the forefront of the copier industry, which means showcasing some of our fantastic remanufactured products at the Paperworld exhibition.”

ECS explained that the exhibition had already proven to be a huge success over the three days, but the highlight of the exhibition came during The Recycler’s Award Ceremony, where the company took home two major international awards, the first being The Remanufacturer of the Year Award, where ECS were voted number one ahead of a number of worldwide companies from Asia, America and Europe. Winning this award highlighted the quality of the company’s products and their commitment to British Remanufacturing. The company’s second award was an individual award claimed by their Marketing Co-ordinator, Jack Anderson – The Rising Star Award, for his outstanding contribution to the company’s success over the last 12 months.

Upon receiving the awards Director Felicity Rabbitte said “We’re proud to have won these awards, especially since we’ve been voted ahead of some other major companies and individuals in the industry. It shows what can be done when a company is invested into a local area by providing employment and training to fantastic individuals who have helped us to achieve both of these awards.”
